Whittaker Corporation 10880 Wilshire Boulevard Los Angeles, CA 90024-4163 213/475-9411

Gordon J. Louttit Vice President Assistant General Counsel

October 24, 1991

Mr. Daniel McGovern (H-2-3)
Regional Administrator
United States Environmental Protection Agency
Region IX
75 Hawthorne Street
San Francisco, California 94105

Re: Revised Part A Application for 22116 West Soledad Canyon Road, Santa Clarita, California -- EPA I.D. No. CAD064573108

Dear Mr. McGovern:

In accordance with Section 66270.72(a)(4) of Title 22 of the California Code of Regulations and 40 C.F.R. 270.72(a)(4), Whittaker Corporation (Bermite Division) ("Whittaker") is submitting the enclosed revised Part A for the above facility. The current owner and operator of the facility is Whittaker Bermite Corporation ("WBC"), a wholly owned subsidiary of Whittaker. The property was transferred by Whittaker to WBC approximately a year ago in anticipation of a transaction that did not occur. Whittaker now desires that WBC reconvey the property to Whittaker.

Whittaker is submitting the revised Part A because Whittaker anticipates that it will become the owner and operator of this facility on approximately February 1, 1992.

Whittaker requests that the above-captioned permit be modified to reflect this change in ownership. Please contact me if you have comments or require additional information.

Very truly yours, bucker J. Loutte (14)

EPA LU, RUILUCI (GILLEI IIVIII DEUC I) C | A | D | O | 6 | 4 | 5 | 7 | 3 | 018 11

MV. Description of Hazardous Wastes

- A. EPA HAZARDOUS WASTE NUMBER Enter the four-digit number from 40 CFR, Part 261 Subpart D of each fisted hazardous waste you will handle. For hezerdous wastes which are not listed in 40 CFR, Part 261 Subpart D, enter the four-kilght number(s) from 40 CFR, Part 261 Subpart C that describes the characteristics and/or the total contaminants of those hazardous wastes.
- 18. ESTIMATED ANNUAL QUANTITY For each fisted waste entered in column A estimate the quantity of that waste that will be than an annual basis. For each characteristic or source contaminant entered in column A estimate the sotal annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.
- C. UNIT OF MEASURE—For each guantity entered in column B enter the unit of measure code. Units of measure which must be used end the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	7	METRIC TONS	M

Meditive records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or apecific gravity of the waste.

D. PROCESSES

1. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of proc codes contained in item III A on page 3 to indicate how the waste will be stored, treated, and/or disposes of at the facili CONTRACT TO THE PARTY

For non-listed hazardous waste: For each characteristic or totic contaminant entered in column A, select the code(s) from the clist of processes that will be used to store, treat, and/or riist of process codes contained in Nem XII A. on page 3 to indicate all the processes that will be used dispose of all the non-listed instantous wastes that processes that characteristic or soric contamina

NOTE: THREE SPACES ARE PROVIDED FOR ENTERING PROCESS CODES. OF MORE ARE NEEDED.

- A. Enter the Kirst two as specifibed ab
- 2. Enter 900 in the outrains right box of her 20V-D/D
- 2. Enter in the space provided on page 7, from XIV-E, the line tember and the additional code(s).
- PROCESS DESCRIPTION: If a code is not fisted for a process that will be used, describe the process has eathe form (D.(2)).

MOTE HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPÀ HAZARDOUS WASTE NUMBER-NEZE can be described by more than one EPA Hezerdous Waste Alumber shall be described on the form a

- Select one of the EPA Hazardous Weste Numbers and en Selections of the EPA riazardous was and D by estimating the total amount grantity of the weste and use and/or dispose of the weste.

 Light column A of the heat line anneal grantity of the weste and or dispose of the weste.

 Light column D(2) on that line onter 'Included with above' and make no other entries on that line. Significantly the form the level to electric the hazardous Waste Alember that can be used to electric the hazardous waste Alember that can be used to electric the hazardous and the line of the hazardous waste Alember that can be used to electric the hazardous waste Alember that can be used to electric the hazardous waste Alember that can be used to electric the hazardous waste Alember that can be used to electric the hazardous waste and the light of the hazardous will be a light of the light of order it in potents A. On the same line possible columns and describing all the processes to be seed to tree

EXAMPLE FOR COMPLETING ITEM XIV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility estimated 900 pounds per year of character shavings from leaster tenning and finishing operation. In additional or of the complete control of the contr

Hazardous Waste Permit Application Part A Attachment

Section XIX. Comments

- 1. The process design capacity of Lines 3 and 5 in Section XII was changed from "closed" to "removed & inoperable."
 Mr. Alan Sorsher asked Bermite to clarify that the processes have not been certified as "closed" by the agency. Rather, all impoundments were demolished and removed in 1983 and, therefore, were no longer capable of being operated after that date.
- 2. Line 9 was added to Section XII as requested by Mr. Sorsher. Whittaker contends this listing is incorrect because hazardous waste (as defined by 40 CFR 261 and 22 CCR Articles 9 and 11) was never treated in the surface impoundments near building 342.

Re: Revised Part A Application for 22116 West Soledad Canyon Road, Santa Clarita, California -- EPA I.D. No. CAD064573108

Dear Mr. McGovern:

In accordance with Section 66270.72(a)(4) of Title 22 of the California Code of Regulations and 40 C.F.R. 270.72(a)(4), Whittaker Corporation (Bermite Division) ("Whittaker") is submitting the enclosed revised Part A for the above facility. The current owner and operator of the facility is Whittaker Bermite Corporation ("WBC"), a wholly owned subsidiary of Whittaker. The property was transferred by Whittaker to WBC approximately a year ago in anticipation of a transaction that did not occur. Whittaker now desires that WBC reconvey the property to Whittaker.

Whittaker is submitting the revised Part A because Whittaker anticipates that it will become the owner and operator of this facility on approximately February 1, 1992.

Whittaker requests that the above-captioned permit be modified to reflect this change in ownership. Please contact me if you have comments or require additional information.

Very truly yours,

buch Jutte (16)

Enclosure

TA I.U. MUILUCI JOINET HUIL PAYE 1)

TEPA HAZARDOUS WASTE NUMBER — Enter the four -digit number from 40 CFR, Part 261 Subpart D of each listed huzardous waste you will handle. For huzardous wastes which are not listed in 40 CFR, Part 261 Subpart D, enter the four-digit number(e) from 40 CFR, Part 261 Subpart C that describes the characteristics and/or the tools contaminants of those hazardous wastes.

THE PROPERTY

- 18. ESTIMATED ANNUAL CUANTITY For each fixed waste entered in column A estimate the quantity of that waste that sail be handled on an annual basis. For each characteristic or toute contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.
- C. UNIT OF MEASURE—for each quantity evidened in column B enter the unit of measure code. Units of measure which must be used send the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	7	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or apecific gravity of the maste.

D. PROCESSES

T. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in item III A on page 3 to indicate how the waste will be stored, treeted, and/or disposes of at the facility.

For non-listed hazardous weste: For each characteristic or totic conteminant entered in column A, select the code(s) from the list of process codes contained in Nem XII A. on page 3 to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that processes that characteristic or louic conteminant.

NOTE: THREE SPACES ARE PROVIDED FOR ENTERING PROCESS CODES, IN MORE ARE MEEDED

- A. Enter the Best two as specified above.
- 2 Enter "0.7" In the outre me hight box of Mess 201-D().
- 3. Enter in the space provided ain page 7, from NV-E, the fine tember and the additional code(s)
- 2. PROCESS DESCRIPTION: If a code is not flated for a process that will be used, describe the precess in the space provided of cathe form (D.(2)).

MOTE HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPÀ HAZARDOUS WASTE NUMBER-Mazardous westen.

- Can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows: - Sales

- 9. Selections of the EPA (azzardoss Wester Numbers and easier it in parametr. On the came that complete column E. c., and D by retinating the total annual guaranty of the transit and describing at the processes to be used to have guaranty at the came of the processes to be used to have guaranteed and describing at the processes to be used to have guaranteed and of the processes of the used to have guaranteed and the processes of the used.
- 2 rain column A of the heat line water the other SPA (legaritors) Waste (this period can) be used in least may be justed, in social parties of the line and residual of with above? and state) so other can be so that fine and residual of with above? and state) so other can be so that fine and residual of the line in the line of the line of
- . 3. Report step 2 for each EPA Hezardoue Waste Number that can be inved to describe the heavy being the formate.

Hazardous Waste Permit Application Part A Attachment

Section XIX. Comments

- 1. The process design capacity of Lines 3 and 5 in Section XII was changed from "closed" to "removed & inoperable."
 Mr. Alan Sorsher asked Bermite to clarify that the processes have not been certified as "closed" by the agency. Rather, all impoundments were demolished and removed in 1983 and, therefore, were no longer capable of being operated after that date.
- 2. Line 9 was added to Section XII as requested by Mr. Sorsher. Whittaker contends this listing is incorrect because hazardous waste (as defined by 40 CFR 261 and 22 CCR Articles 9 and 11) was never treated in the surface impoundments near building 342.
